

RESULTS OF THE FRANCOPHONIE FRENCH QUIZ COMPETITION RELEASED

The Secretariat for Francophone Affairs under the auspices of the Ministry of Education has released results of this year's Francophonie French Quiz. The quiz was centred on the International Organisation of Francophonie, one of the partners of the Ministry.

The quiz, which was published on the Ministry's website, attracted various participants across the country. The quiz is organised annually to enrich and revive the spirit of the study of the French language among Ghanaians.

The Organisation was founded in 1970. Every year, the Organisation and its members commemorate this day by organising symposia and cultural activities to sensitise the public on its achievements worldwide.

In Ghana, the Organisation has supported a number of activities in the Education sector including Training of Junior and Senior High school teachers of French, provision of ICT equipment, books, teaching and learning materials to Regional Centres for the Teaching of French, connection to internet and creation of French documentation and information centres in ten regional libraries.

Information on the prizes of the contestants who placed first to 20th will be communicated to them via their emails or contact numbers provided. The Ministry invites the general public to regularly visit the web site and to participate more in the competition next year.

Below is the list of the participants with their respective scores and positions.
