

PRESS RELEASE

FOR IMMEDIATE RELEASE

COMPUTERISED SCHOOL SELECTION & PLACEMENT SYSTEM (CSSPS)

The Computerised School Selection and Placement System (CSSPS) of Ghana Education Service (GES) has commenced preparations towards this year's school selection and placement exercise. As part of the preparations, parents and guardians of Basic Education Certificate Examination (BECE) candidates have the opportunity to confirm their four (4) choices of schools and programmes made prior to the selection and placement exercise in September.

This arrangement is done to avoid the situation where some candidates and parents deny knowledge of the schools they have chosen after selection and placement is done by the CSSPS.

To display the schools selected during the BECE registration, text ONLY your ten (10) digit index number to short code 1060 of any of the following networks: Vodafone, MTN, Airtel and Tigo.

In case of any disparity, kindly contact the head teacher of your junior high school.
